---

### SUMMARY

Data Professional with 3+ years of hands-on experience across data analytics, data science, and database engineering. Proficient in SQL, Python, Java, HTML, PowerBI, Tableau, QuickSight, Report Builder and QuickBI, with a strong track record delivering 200+ SSRS reports, developed and maintained 50+ interactive dashboards. Driven by a passion for turning raw data into actionable insights that improve decision-making.

---

### WORK HISTORY

#### DATA ANALYST | 07/2025 – Present

Zanko Sdn. Bhd.

- Maintain and optimize interactive dashboards for the Online Marking System (OMS) under Lembaga Peperiksaan Malaysia and Kementerian Pendidikan Malaysia.
- Lead migration total of 50+ dashboards from AWS QuickSight to Alibaba QuickBI.
- Lead migration total of 50+ dashboards from AWS Quicksight account to another using AWS CLI
- Develop operational dashboards using SQL and AWS QuickSight to support new analyses and data-driven decision-making.
- Develop Executive Dashboard for Sistem Hasil Tanah Johor (SHTJ) using Superset.
- Enhanced Apache Superset dashboards by customizing number formats and implementing Jinja templating to support dynamic, filter-driven values.
- Serve as Main Trainer and Speaker for Apache Superset Training at Map2U, delivering hands-on sessions on dashboard development and data visualization.
- Serve as Speaker and Trainer for the "Python for Beginners" program at Zanko Academy, delivering hands-on sessions on Python and Selenium automation.

#### DATA ANALYST INTERN | 03/2025 – 07/2025

Zanko Sdn. Bhd.

- Developed mockup dashboards for RTM and IFOS projects to support data visualization and tender documentation.
- Created beginner-friendly learning modules for Python Programming and Tableau to assist internal training.
- Assisted in drafting technical proposals for the MITI project tender, focusing on the data management.

#### IT EXECUTIVE (PART -TIME) | 03/2023 – 10/2024

Lee's Frozen Food Sdn. Bhd.

- Designed and maintained over 100 business reports using SQL and Report Builder to support operational decision-making.
- Developed Ad-Hoc Reports for C-level executives to support business planning and decision making.
- Collaborated with cross-functional teams to generate actionable, data-driven insights.
- Performed weekly reconciliation of the Microsoft Dynamics GP system database.

#### IT INTERN | 09/2022 – 03/2023

Lee's Frozen Food Sdn. Bhd.

- Designed and developed an inventory management system for IT hardware, streamlining asset tracking and ensuring accurate records.
- Assisted in developing and maintaining over 100 business reports using SQL and SSRS to support various departments.

## EDUCATION

### UITM SHAH ALAM, SELANGOR

Degree in Computer Science (Hons.) Netcentric Computing (2023 – 2025)

CGPA: 3.38

### UITM RAUB, PAHANG

Diploma in Computer Science (2020 – 2023)

CGPA: 3.52

---

## PROFESSIONAL SKILLS

### Technical Skills

- **Data Analysis & Reporting:** SQL, Tableau, PowerBI, QuickSight, Microsoft Report Builder, QuickBI, Superset, Excel
- **Full-Stack Development:** React Native, Firebase, Laravel
- **Programming Languages:** HTML, CSS, PHP, Java, JavaScript, JSON, Python, C++, R
- **ERP System:** Microsoft Dynamics GP

### Languages

- **Malay** – Native proficiency
- **English** – Bilingual proficiency

### Communication Skills

- Strong Interpersonal and relationship-building skills
  - Exceptional verbal and written communication
  - Public speaking and speech writing
- 

## PROJECTS

- **Online Marking System (LPScor, E-Marks, MPMSkor):** Developed and enhanced interactive dashboards using Amazon QuickSight for nationwide examination systems used by Kementerian Pendidikan Malaysia (KPM) and Majlis Peperiksaan Malaysia (MPM). Automated KPI tracking and reporting, improving data visibility and significantly reducing manual reporting efforts for large-scale marking operations.
  - **Sistem Hasil Tanah Johor V3:** Designed and implemented analytical dashboards using Apache Superset for Pejabat Tanah dan Galian Johor (PTG Johor). Enabled real-time monitoring of land revenue collection and trend analysis, improving reporting efficiency and supporting data-driven decision-making at the state level.
  - **Kinwise – Household Chores Management Mobile Application:** Built a full-stack mobile application using React Native (Expo) and Firebase, featuring an automated round-robin chore assignment algorithm and gamification system. Enhanced user engagement and task management through structured scheduling and performance tracking.
  - **UiTM Sport Equipment Booking System (SEBS):** Developed a full-stack booking system for Unit Sukan UiTM Shah Alam using Laravel and MySQL, streamlining equipment reservations and reducing manual administrative workload through digitalization.
- 

## CO-CURRICULUM & ACHIEVEMENTS

- **Dean's List** – Degree (3<sup>rd</sup> and 4<sup>th</sup> Semester) and Diploma (1<sup>st</sup> and 3<sup>rd</sup> Semester)
- **Disciplinary Prefect 2019**
- **Leader of Sports Prefect 2019**
- **Anugerah Perak 2019** – Best Sports Prefect
