SUMMARY

Data Professional with 3+ years of hands-on experience across data analytics, data science, and database engineering. Proficient in SQL, Python, Java, HTML, PowerBI, Tableau, QuickSight, Report Builder and QuickBI, with a strong track record delivering 200+ SSRS reports, developed and maintained 50+ interactive dashboards. Driven by a passion for turning raw data into actionable insights that improve decision-making.

WORK HISTORY

DATA ANALYST | 07/2025 – Present

Zanko Sdn. Bhd.

- Maintain and optimize interactive dashboards for the Online Marking System (OMS) under Lembaga Peperiksaan Malaysia and Kementerian Pendidikan Malaysia.
- Led migration of 50+ dashboards from AWS QuickSight to Alibaba QuickBI and cross-account QuickSight migrations using AWS CLI.
- Develop operational dashboards using SQL and AWS QuickSight for data-driven decision-making.
- Developed the Executive Dashboard for Sistem Hasil Tanah Johor using Apache Superset.
- Enhanced Superset dashboards with custom number formats and Jinja-driven dynamic filtering.
- Main trainer and speaker for Apache Superset training; speaker and trainer for Python for Beginners and Selenium automation.
- Monitor dashboard data and key examination metrics to ensure accurate and reliable reporting throughout examination operations.
- Build and optimize complex SQL queries for analytical datasets and dashboard visualizations.
- Work with ClickHouse as an analytical database for high-volume dashboard datasets and reporting requirements.
- Develop and maintain ClickHouse views and materialized views to support dashboard performance and reusable analytical datasets.
- Analyze and troubleshoot data discrepancies across dashboards, SQL queries, datasets, and source systems.
- Collaborate with project and technical teams to translate business and reporting requirements into dashboards and analytical solutions.

DATA ANALYST INTERN | 03/2025 – 07/2025

Zanko Sdn. Bhd.

- Developed dashboard mockups for RTM and IFOS projects to support data visualization requirements and tender documentation.
- Designed visualization concepts to demonstrate how operational and analytical data could be presented through interactive dashboards.
- Created beginner-friendly learning modules for Python Programming to support internal learning and technical training.
- Developed introductory Tableau learning materials covering data visualization concepts and dashboard development.
- Assisted with internal data analysis and visualization tasks using SQL and business intelligence tools.

IT EXECUTIVE (PART -TIME) | 03/2023 – 10/2024

Lee's Frozen Food Sdn. Bhd.

- Designed and maintained 100+ business reports using SQL and Microsoft Report Builder to support operational reporting across the organization.
- Developed SQL queries to extract, transform, aggregate, and present business data according to departmental reporting requirements.
- Developed ad-hoc reports for C-level executives, providing relevant information to support business planning and management decision-making.
- Worked with stakeholders from different departments to understand reporting requirements and translate them into structured reports.
- Collaborated with cross-functional teams to identify relevant data and generate actionable, data-driven insights.
- Modified and enhanced existing reports based on evolving business requirements and user feedback.
- Investigated report discrepancies by validating SQL queries and comparing report outputs against underlying database records.
- Supported day-to-day reporting requirements by providing data extracts and customized reports when required.
- Worked with business data stored within the Microsoft Dynamics GP ecosystem for reporting and operational analysis.
- Performed weekly reconciliation of the Microsoft Dynamics GP system database to help maintain consistency and reliability of business data.
- Maintained existing reporting solutions to ensure continued availability for operational users.
- Supported users with report-related issues and assisted in resolving data or reporting problems.

IT INTERN | 09/2022 – 03/2023

Lee's Frozen Food Sdn. Bhd.

- Designed and developed an IT hardware inventory management system to improve asset tracking and maintain accurate inventory records.
- Structured the inventory system to centralize hardware information and simplify the management of IT assets.
- Assisted in maintaining IT hardware records and ensuring asset information remained organized and accessible.
- Assisted in developing and maintaining 100+ business reports using SQL and SSRS for multiple departments.
- Wrote and modified SQL queries to retrieve data required for operational and management reports.
- Assisted in updating existing SSRS reports based on departmental requirements and requested changes.
- Supported report testing and validation to ensure displayed information matched the underlying data.
- Assisted with troubleshooting report-related issues and identifying potential SQL or data problems.
- Worked with different departments to understand their reporting needs and required information.
- Gained practical experience working with SQL databases, SSRS, enterprise reporting, and Microsoft Dynamics GP.
- Supported general IT and data-related tasks as part of day-to-day business operations.
- Developed an understanding of how reporting systems and databases support operational decision-making within a business environment.

EDUCATION

UITM SHAH ALAM, SELANGOR

Degree in Computer Science (Hons.) Netcentric Computing (2023 – 2025)

CGPA: 3.38

UITM RAUB, PAHANG

Diploma in Computer Science (2020 – 2023)

CGPA: 3.52

PROFESSIONAL SKILLS

Technical Skills

- **Data Analysis & Reporting:** SQL, Tableau, PowerBI, QuickSight, Microsoft Report Builder, QuickBI, Superset, Excel
- **Full-Stack Development:** React Native, Firebase, Laravel
- **Programming Languages:** HTML, CSS, PHP, Java, JavaScript, JSON, Python, C++, R
- **ERP System:** Microsoft Dynamics GP

Languages

- **Malay** – Native proficiency
- **English** – Bilingual proficiency

Communication Skills

- Strong Interpersonal and relationship-building skills
 - Exceptional verbal and written communication
 - Public speaking and speech writing
-

PROJECTS

- **Online Marking System (LPSSkor, E-Marks, MPMSkor):** Developed and enhanced interactive dashboards using Amazon QuickSight for nationwide examination systems used by Kementerian Pendidikan Malaysia (KPM) and Majlis Peperiksaan Malaysia (MPM). Automated KPI tracking and reporting, improving data visibility and significantly reducing manual reporting efforts for large-scale marking operations.
 - **Sistem Hasil Tanah Johor V3:** Designed and implemented analytical dashboards using Apache Superset for Pejabat Tanah dan Galian Johor (PTG Johor). Enabled real-time monitoring of land revenue collection and trend analysis, improving reporting efficiency and supporting data-driven decision-making at the state level.
 - **Kinwise – Household Chores Management Mobile Application:** Built a full-stack mobile application using React Native (Expo) and Firebase, featuring an automated round-robin chore assignment algorithm and gamification system. Enhanced user engagement and task management through structured scheduling and performance tracking.
 - **UiTM Sport Equipment Booking System (SEBS):** Developed a full-stack booking system for Unit Sukan UiTM Shah Alam using Laravel and MySQL, streamlining equipment reservations and reducing manual administrative workload through digitalization.
-

CO-CURRICULUM & ACHIEVEMENTS

- **Dean's List** – Degree (3rd and 4th Semester) and Diploma (1st and 3rd Semester)
- **Disciplinary Prefect 2019**
- **Leader of Sports Prefect 2019**
- **Anugerah Perak 2019** – Best Sports Prefect
